II. Priorities with Principals

Principals and the Board reviewed the facilities needs document, discussed the process by which Homecoming Royalty is chosen and whether or not the Every 15 minutes program is a match for our community. Principals ranked their building needs, and will take the board suggestions regarding Homecoming Royalty and Every 15 Minutes into consideration as they discuss them with community members, staff and students. When asked by the Board what they need principals replied with “to keep the great teachers we have and replace retirees with great teachers” and “in general we need more mental health support in all of our buildings.”
