

School Meal Payments

The district is committed to ensuring that all students receive the nutrition they need to engage in active learning during the school day. In accordance with applicable federal guidance from the United States Department of Agriculture (USDA), this policy is intended to serve the purposes of meeting student needs, minimizing the identification of students with insufficient funds to pay for school meals and maintaining the fiscal integrity of the district's school food service account.

Student meal accounts and meal charges

Student meal accounts shall be established by the district.

Parents will be encouraged to pre-pay for students paying full or reduced price for meals. The district shall ensure that parents have access to at least one no-cost method of paying for meal services, such as the ability to pay in person.

Students will be permitted to pay for meals and/or add funds to student accounts on the day of service.

If a student has money to purchase a full or reduced price meal at the time of the meal service, the student must be provided a meal. The student's money may not be used to repay previously unpaid charges if the student intended to use the money to purchase that day's meal.

Students may charge up to \$10.00 before the student will no longer be permitted to charge meals. Students at the meal charge maximum will be provided a complimentary replacement meal.

Notification of low or negative balances

Notification of a low balance on a student account will be provided privately by automated phone calls each Wednesday to families whose account balance is less than \$2.00.

When notified of a low balance on a student account, parents will be reminded of this policy and the process for submitting applications for free or reduced price meal benefits. Parents will also be notified that any school meal debt accrued prior to the district's determination that the student is eligible for free or reduced lunch remains the parent's responsibility.

Notification of a negative balance on a student account will be provided by automated phone calls each Wednesday, followed by a personal call or letter from the Food Service Director after five days.

Collection of meal charge debt

In collecting debt, the district shall ensure that collection efforts do not have a negative impact on the students involved and instead focus on the adult(s) in the household responsible for providing funds for student meal purchases. The district

will work with parents to establish repayment plans with payment levels and due dates appropriate to the household's particular circumstances.

For students with delinquent meal charges, the following process will be used to collect debt. The Food Service Director will contact the parent/guardian by phone and letter. The food service department reserves the right to refer a debt to a collection agency if the debt is not paid within one calendar year, or if the student leaves the district.

The district shall notify students and their parents about this policy at the beginning of each school year. Notification shall also be provided to those students who transfer into the district during the school year. Information about this policy may also be included in student handbooks, student enrollment or registration packets and/or back-to-school packets and posted on district and school websites.

This policy will also be communicated to school and district-level staff responsible for this policy's enforcement, such as school food service staff responsible for collecting payment for meals at the point of service, staff involved in notifying families of low or negative balances, and staff involved in enforcing any other aspects of this policy.
